

Hello to my AVID 1 Students!

Just a few short weeks until the end of your freshman year! Sadly it had to be in this hectic period of Covid19 crisis. I want to make sure I'm supporting you as you work on the classes you need to pass this final semester and stay on track to be accepted to college in just three short years. I know the time away from school has been stressful, but we are getting back to our learning and I need you to really focus and try your best for these next few weeks.

For our AVID class, I will only be asking you fill in the attached Learning Log EVERY WEEK. There are 5 weeks of school, that means you need to turn in 5 learning logs. This is a new learning log so read the questions/ prompts carefully. Also, your notes from the previous two weeks will also be counted so please turn those in as well, and they will be counted as extra credit (yay!). Yes, this is a GRADED ASSIGNMENT of 100 pts per week, and can change your grades dramatically.

To fill in the learning log:

- All boxes must be completed
- "I don't know" or "nothing" is NOT an acceptable answer
- All answers must be in complete sentences, except the last box on the bottom right side.
- Please reflect and think about each of your classes as you fill in the Learning Log, this is meant to help you review and remember the work you are given by each teacher
- You should do this assignment last during the week, make sure all other work from other classes is done first
- You may print it out or fill out the documents directly
- You will be graded on your THOUGHTFUL reflection (basically 3-6 sentences or more).
- If you have any questions you can contact me on our Microsoft Team page on Office 365 (www.login.microsoftonline.com) , on Remind, by Email, or text at (209) 597-8346.
- All submissions should be done in either two ways: Email a good photograph of each sheet of paper and emailed to me at skim@tusd.net by 5/8 and 5/15 or turn into the school in the front by these dates.

Name: _____

ENGLISH My Teacher for this class is: _____ The current date is: _____	What did you do for this class this week? _____ _____ _____ _____	What is the most important thing to remember about this week's work? _____ _____ _____ _____
Something I needed help with on this week's work was: _____ _____ _____ _____	In the space below, please use one of the provided options to summarize your learning in this class for the week: create a mind map, draw a scene with characters and background, write a short summary paragraph, or draw 5 or more emojis that explain the main idea.
