

Week 1 Lesson

AP Psychology

Using your textbook, answer the following **Ch 16 Objective Questions**. Each Objective Question should be about a half-page or longer in short answer essay prompt form. No introductory nor conclusion sentence is needed. Simply answer the questions as completely as possible. You can use Word to write and send the completed work back to me electronically. You can send as soon as you complete the assignment. If you're picking the work up, you can write it on a separate piece of paper. Be sure to label each objective. Send completed work to jfallquist@tusd.net or to Remind. Paper copies can be dropped off at the school by May 8 for me to pick up. Email me with any questions.

Objective 1

Identify the criteria for judging whether behavior is psychologically disordered.

Objective 2
