Grade Level: 9, 10, 11, 12

Hello Students!!

Just because we are not in class, does not mean our learning and hard work will be stopping.

Please email or call me if you have any questions or concerns.

Stay safe and healthy.

***Distance Learning: Science Log***

Your assignment is to read about something related to science for 10-15 minutes a day or find a Crash Course Video on YouTube. You can find any article, story or any other video so long as it is school appropriate. Then you will write a 3 sentence reflection on what you read or watched. You will complete 8 total reading logs.

I will be checking for and grading this assignment weekly. You are expected to turn in 2 Science Logs per week. You can text me or email me your logs each week. Or you can turn a paper log for all 8 by **MAY 15<sup>TH</sup>**. I will NOT accept work past **MAY 15<sup>th</sup>**. If you text me or email me a picture of your work, PLEASE make sure you can see, read and understand the picture before you send it. If I cannot read or understand your work through the picture you will not get a grade for the whole log.

**GRADING:** Your log is worth 80 POINTS with each reading log worth 10 points. Please make sure each log has a date, number, title and a Link to the video you saw or article that you read.

April 20-24: 2 logs due

April 27-May 1: 2 logs due

May 4-8: 2 logs due

May 11-15: 2 logs due

***Total of 8 logs for a total of 80 points***

Each log should include the name/title of what you read or watched. Each log should also have a LINK to what you read or saw. Make sure the link works. If it does not work, I will not be able to check what you saw. If I cannot check what you saw, then you will get a zero for that log.
