

WEEK 5 FINAL ASSIGNMENT – EL Government

Welcome to Week 5. I am so impressed with your tenacity to get in and get it done, instead of just throwing your hands up and walking away. You hung in there and figured it out! And your reward for all the hard work you completed in the last month, actually the 2019-2020 year, is your **“FINAL” project**.

Your final Government assignment/FINAL PROJECT is going to take a lot of critical thinking, reviewing notes, and thinking about old lectures to complete.

You have a choice between two options. **Option 1** is you can write a 1-2 page letter OR

Option 2 is you can record a 3-minute video.

No matter what option you choose please include the following:

- 1) The first two minutes of your video is a review of what you learned this year about the government and economics. You can include the content you learned or remembered, or a skill that you discovered through our class this year. This must be **2 minutes**.
- 2) The last minute is a special goodbye to me! Since I am not able to see you before summer. Share any moments you specifically remember or particularly enjoyed this year in class. Maybe there was a special moment you needed guidance and wanted to share a personal victory. This is your **60 seconds** to do it.

→I can't wait to see you in your videos!!

How to turn in: You may submit the work by emailing it directly to me, or by REMIND. If you write a letter by hand you can drop it off the last drop off date: **May 15**. Or take a picture of it, and send it to me.

After this assignment, YOU ARE DONE with Government!! Yay!
